

AMENDMENTS TO THE CLAIMS

The following listing of claims will replace all prior versions, and listing of claims in the application:

Listing of Claims:

1. (Currently amended) A cap comprising:
 - a body having a front portion, a back portion, side portions, and a lower peripheral edge, wherein the back portion includes an inverted U-shaped opening;
 - a sweatband coupled to the lower peripheral edge, wherein the sweatband includes an elastomeric section;
 - a visor obliquely coupled to a substantial portion of the lower peripheral edge to thereby generally circumscribe the lower peripheral edge, the visor having a generally oval perimeter; and
 - a first ribbon and a second ribbon coupled to the body at opposite ends of the inverted U-shaped opening, each extending to terminate at a free end.
2. (Original) The cap of claim 1 wherein the body comprises a plurality of gores.
3. (Original) The cap of claim 2 wherein the body comprises six gores.

4. (Original) The cap of claim 1 wherein the elastomeric section of the sweatband spans the inverted U-shaped opening.
5. (Original) The cap of claim 2 wherein the visor, the first ribbon, and the second ribbon have a same color.
6. (Original) The cap of claim 1 wherein the body is formed from unilaterally stretchable fabric.
7. (Original) The cap of claim 1 wherein the body is formed from multi-axially stretchable fabric.
8. (Currently amended) A cap comprising:
 - a plurality of gores defining a body having a lower peripheral edge, wherein the body includes a passageway sized to hold a ponytail;
 - a sweatband having an elastomeric section, wherein the elastomeric section of the sweatband spans the passageway;
 - a first ribbon and a second ribbon coupled to the body adjacent to the passageway and terminating at respective free ends; and

a visor obliquely coupled to the body, wherein the visor is generally oval-shaped and generally circumscribes the lower peripheral edge.

9. (Original) The cap of claim 8 wherein six gores define the body.

10. (Currently Amended) The cap of claim 8 wherein the visor, the first ribbon, and the second ribbon have a same color.

11. (Original) The cap of claim 8 wherein the body is formed from unilaterally stretchable fabric.

12. (Original) The cap of claim 8 wherein the body is formed from multi-axially stretchable fabric.

13. (Currently amended) A cap comprising:

six gores defining a body having a lower peripheral edge;

an inverted U-shaped opening positioned along the lower peripheral edge of the body;

a sweatband having an elastomeric section, wherein the elastomeric section of the sweatband spans the inverted U-shaped opening;

a first ribbon and a second ribbon coupled to opposite ends of the inverted U-shaped opening and terminating at respective free ends; and

a visor having a generally oval outer radius obliquely coupled to the lower peripheral edge of the body, the visor generally circumscribing the lower peripheral edge.

14. (Original) The cap of claim 13 wherein the visor, the first ribbon, and the second ribbon have a same color.

15. (Original) The cap of claim 14 wherein the body is formed from unilaterally stretchable fabric.

16. (Original) The cap of claim 13 wherein the body is formed from multi-axially stretchable fabric.
